Street sweeping in Huntington nearing completion

HUNTINGTON – The Huntington Sanitary Board and Sweeping Corporation of America are nearing completion of the 2026 citywide street sweeping season.

The schedule for the week of November 2 is as follows:

- Monday, Nov. 2: Section 17 (West End and Westmoreland)
- Tuesday, Nov. 3, and Wednesday, Nov. 4: Section 18 (Westmoreland)

Once these sections are completed, the Sanitary Board will announce a special, two-week sweeping schedule that will target areas of the city where storm drains are prone to become obstructed by leaves.

Street sweeping is an effort to minimize the impact of storm water on Huntington's roadways and prevent pollution from entering the city's sewer collection system.

It is important to note that this is not a beautification effort but rather a critical action to keep debris from entering the sewer collection system and treatment plant.

Residents are asked to keep an eye out for signage to give them advanced notice. Every Friday, large, yellow signs will be placed along street sweeping routes for the following week to inform residents that street sweeping is scheduled to occur in their area and to watch for "No Parking" signs.

The day before street sweeping occurs in a particular area, the large, yellow signs will be replaced with white “No Parking, Street Sweeping” signs that remind residents to remove their vehicles from the roadway during scheduled street sweeping hours, which are 8 a.m. to 5 p.m.

The Huntington Police Department will patrol and issue citations to vehicles parked in the sweeping zone during the scheduled hours.

The schedule is subject to change due to weather conditions. **In the event of weather affecting the schedule, operations will be pushed back accordingly to the day or days affected.**
